1 INTRODUCTION

1.1 Overview

Description about the project

The Travel Support System (this is the name that you can see on the screen when executing the application) is a small sample application for Natural ONE. As a sample application, its focus is to show Natural ONE functionality rather than being a full-fledged travel support application.

The Travel Support System (TSS) allows you to request and approve business trips. Flights, hotels and even more external information such as cell phone expenses or car rentals can be entered with the trip request. For the destination, weather information can be queried. A manager can do both, request own trips as well as approve trips that have been requested by employees. After the manager has approved single or multiple requests, the manager can print an itinerary or receive the itinerary as a PDF file.

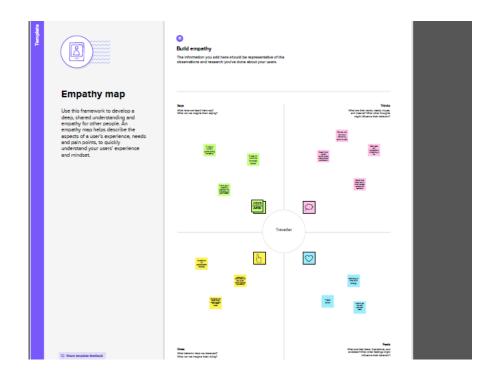

1.2 Purpose

Travel Approval is the initial step of the travel process where employees raise travel requests to be approved by respective approvers.

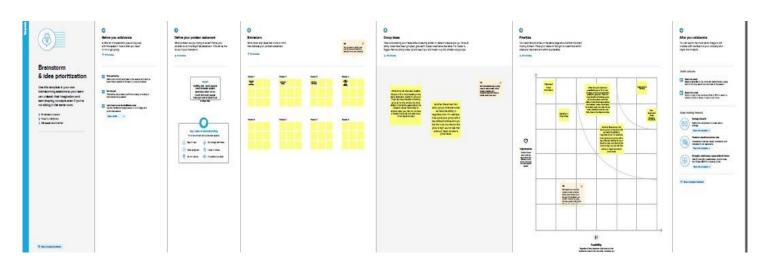

The main objective of pre-trip approval is to control undesirable travel buying behaviours of employees and cost. The approver verifies the travel request according to the travel policy of the corporate and decides to approve or decline.

2 PROBLEM DEFINITION & DESING THINKING

2.1 Empathy Map

2.2 Ideation & Brainstorming Map

3 RESULT

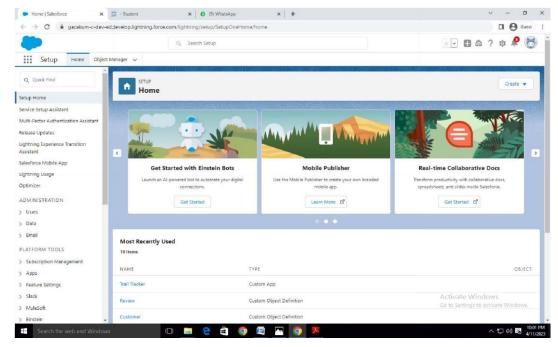

3.1 Data Model

Object Name	Fields in the Object		
	Field Label	Date Type	
Job Posting Site	Department	URL	
	Travel Approval	URL	
	Expense Item	URL	
	Reports	URL	
	Dashboards	URL	
Review	-	-	

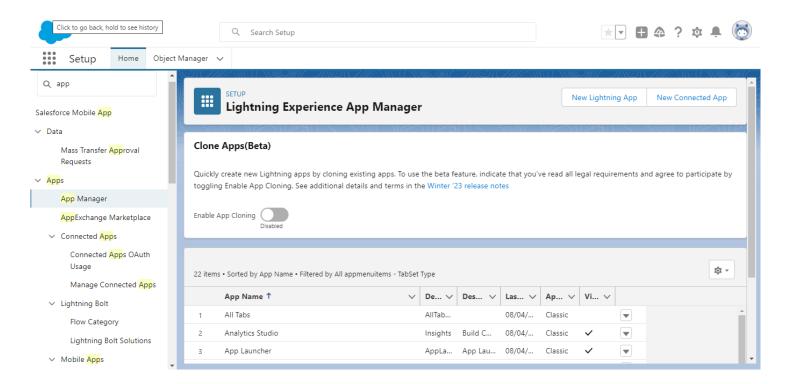

3.2 Activity & Screenshot

Milestone 1:

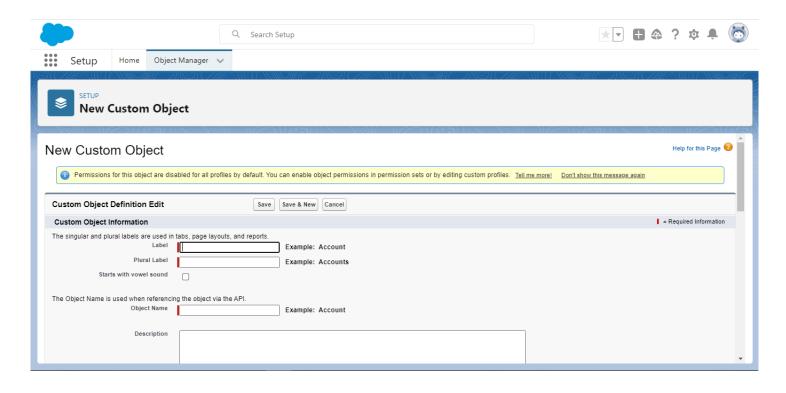

Creation of Salesforce Account.

5 ADVANTAGES & DISADVANTAGES

- It's a low cost way to list your property and its rooms.
- Reductions in your online marketing spend.
- Using OTAs does not reduce the need to have your own website with booking engine.
- You may still need to invest in a balanced multi-channel marketing strategy.
- There may be restrictive terms and conditions imposed by OTAs such as guest cancellation and automatic room reselling policies.

6 APPLICATIONS

- The Travel Support System (TSS) allows you to request and approve business trips.
- Flights, hotels and even more external information such as cell phone expenses or car rentals can be entered with the trip request.

• For the destination, weather information can be queried.

7 CONCULUSION

 Given this opportunity for greater awareness, it is hoped that students like you will help share this information as you learn more about the sector.

8 FUTURE SCOPE

The Travel Industry has grown by leaps and bounds and it will surely reach even better heights in the times to come. Today, when we talk about the growth of this industry, we cannot ignore mentioning the ample amount of career opportunities that lay subsumed in it.
